Manumissions and Sales of Slaves Recorded in Land Records of Somerset and Worcester Counties, Maryland

Abstracted from Libers
LW6, LW7, LW8 and LW9 of Somerset County (1859-1866)
and GHR1, WET2 and WET3 of Worcester County, Maryland (1860-1866)

Abstracted by
Donna Messick

This abstract was initially undertaken with the intent to collect the deeds of manumissions of slaves released to undertake service in the United States Colored Troops for the purpose of service in the Civil War. The earliest USCT manumissions found were recorded in January 1864 for those persons who began service in November 1863 based upon recruitment under the War Department's General Order 329. This act provided for the enlistment of free blacks, slaves of disloyal owners and slaves of consenting owners in the Border States into the USCT. Consenting owners were to receive compensation from the government and the slave was to be granted his freedom.

The information recorded in the deeds was provided by the slave owner and varies in terms of detail and possibly accuracy. You will note that many provide details as to enlistment date and regiment, age and other personal details while others offer scant or incomplete information. These details are entered in the "additional info" column of this abstract.

In order to provide additional resources for those researching family, as well as local history, this abstract was expanded to include other manumission deeds and the bills of sale found a few years prior to the USCT period. Since Wicomico County was carved from Somerset and Worcester Counties in 1867, the people named here are those later associated with Somerset, Wicomico and Worcester Counties. Few manumissions are found in the period immediately prior to the Civil War while many occur in 1864. It is necessary to take a closer look at the Maryland Constitution and the ever-changing laws regarding slavery in order to understand these shifts. The book *Slavery and Freedom on the Middle Ground: Maryland during the Nineteenth Century* by Barbara Jeanne Fields is recommended for insight into the issues regarding manumission in Maryland.

There are two types of listings in this abstract – deeds of manumissions and bills of sale. Each type of document has two listings which are sorted alphabetically. Deeds of manumission are shown by the alpha order of the former slave and then by the alpha order of the owner. The bills of sale are divided into alpha listings by the seller's name and then by the buyer's name. There are several deeds which do not include a surname and are shown only by the first name as given in the deed. It is left to the researcher to determine what surname the freedman chooses or if; indeed, those with surnames, perhaps chosen by the owner, clerk of court or recruiter, retain that name once they are freed.

Abbreviations include BOS – bill of sale, DOM- deed of manumission, USCT- United States Colored Troops, dau- daughter, exec- executor and adm- administrator.

Deeds of Manumission - Alpha by slave
